# How It Works

01

## **You select your program and we assign your EBP.**

Your Executive Business Partner is your prime point of contact and conductor of the orchestra. Your EBP quickly gets to know you and understand your business, facilitating all of your Advisory interactions and document reviews.

02

**You brief your EBP on the topics and key initiatives that are relevant to you and schedule as many online advisory sessions or document reviews as you need, when you need it.**

03

**Whatever the topic, whatever the challenge, whatever the initiative, your sessions are scheduled and we come together as one, for you!**

# Enterprise Advisory Subscription
